DRC

Domain Relational Calculus.

Attribute/Field-

Domain $\rightarrow$ variable.

Employee $\rightarrow \{ \underline{\text{Empname}}_q, \underline{\text{empno}}_r, \underline{\text{salary}}_s, \underline{\text{age}}_t, \underline{\text{Deptno}}_u \}$

Department $\rightarrow \{ \underline{\text{Deptno}}_x, \underline{\text{Deptname}}_m, \underline{\text{Doloc}}_n, \underline{\text{NOE}}_o \}$

Find Employee name who works at Research department.

Employee $\{ q, r, s, t, u \}$
Department $\{ x, m, n, o \}$

$\} \quad \boxed{\exists, \forall}$

$\{ q \mid (\exists u)(\exists r)(\exists m) \text{ Employee}(q, r, s, t, u) \wedge$
 $\text{AND department}(x, m, n, o) \text{ AND}$

$m = \text{'Research'} \text{ AND } x = u \}$ ✓

Find the salary and D-loc of the employee whose age is greater than 50.

$\{s, n \mid (\exists r)(\exists u)(\exists t) \text{ Employee}(r, s, t, u) \text{ AND Department}(r, m, n, o) \text{ AND } t > 50 \text{ AND } r = u\}$.

- ⑥ ~~###~~ (i) Difference b/w Relation Algebra and Relational Calculus.
- (ii) Difference b/w TRC & DRC.
